#### CONSTITUTION FRAMERS TO END TASK THIS WEEK

All Work Expected to Be Finished Except Dovetailing New Amendments-Root Says People Will Get Chance to Kill Invisible Government.

ALEANY, Aug. 29.—President Root and George W. Wickersham expect the Constitutional Convention to complete the stitutional Convention to complete the state of the passage of amendments to the State forest for twenty years more. nstitution by next Saturday night. Then a recess will be taken until the Wages for Women and Children. permit a committee, of which it is ex-pected Louis Marshall will be at the for women and children. pected Louis Marshall will be at the head, to fit the new amendments into clude victims of occupational diseases

Nevember election.

The "Federal crowd," including President Root, George W. Wickersham, Henry L. Stimson, Herbert Parsons, John Lord O'Brian and Frederick C. Tanner, have reviewed the work of the provisions of the labor law which may be already to the protection of the lives, health, safety, morals or welfare of employees." and feel that they are giving the people than another.

Authorizing either the Legislature of a progressive but not a radical Con- the Assembly alone to convene in orig-

The revised Constitution will not contain provisions for the initiative, referendum and recall, but will have provisions making the impeachment of public officials easier. If the short ballot and Tanner reorganization plan are adopted invisible government in this contains the future will be made imposand Tanner reorganization plan are adopted invisible government in this state in the future will be made impossible and responsibility will centre in the Governor, says President Root.

#### PROFITS FOR STATE IN NIAGARA POWER

Legislative Committee Says Returns Would Pay All Road Maintenance.

CANADA TO COOPERATE

BUFFALO, Aug. 28 -State ownership of Niagara Falls power will not be recommended by the joint legislative committee designated to investigate the situation. Nor will its report pay much attention to the question of private ownership. But recommendation will be made that the State of New York derive revenue from development of this power similar to the gaining of revenue by the United States from power concessions at Sault Ste. Marie, Mich.

"The Federal Government, however, says Senator George F. Thompson o Middleport, chairman of the committee "must cease legislating against utilization of this power. Under an agreement which might be reached between New York State and the Province of Ontario Federal ratification, New York could obtain enough money to pay and maintain all its good roads, which constitutes one of the greatest problems of the Legislature from an economic

standpoint."

Although an international agreement will be necessary, Senator Thompson says, the final solution must be found in an understanding between the State of New York and Ontario. On the authority of Sir Adam Beck, chairman of the Ontario Hydro-Electric Commission, Canada is ready for such an agreement. "After studying the situation," added Senator Thompson, "the committee will Michael Sullivan, 29, a stenographer recommend that fully one-half the water

running down the Niagara River be for power purposes. This can be

City to Get Power.

So far as New York city is concerned from a commercial standpoint Senator Thompson quotes Sir Adam Beck as stating that electric power from the Falls can be sold in the metropolis for half what it now costs. "In my judgment, this is perfectly practical," the Canadian expert told the committee. Besides that, Sir Adam says, the time is coming when the people of Canada and New York State will need all the power the Falls can develop.

tors from two to four years and of Assemblymen from one to two years, and Greece reached New York yesterday, two decreasing the number of Senators and weeks overdue, having been detained by velopment plans to meet all needs for

# as it ought to be developed on the ground it would lower the level of the lakes. It is difficult for a layman to see how a canal from Lake Erie to the river at Grass Island pool, just above the falls, could affect the lake level nine feet, as Washington claims. As it is, whether the water goes over the falls or through Penstock or Chippewa Creek, through Penstock or Chippewa Creek, the Canadian side benefits by it. There is no danger, the commission thinks, of navigation on the lakes being affected

by a power canal.
"About 250,000 cubic feet of water pass over the falls each second. The United States—the State of New Yorkcould have one-half that energy. And pair the scenic beauty of the falls.

"The commission will not recommer State ownership on development of power, neither will it devote much time o private ownership propositions except on a basis of paying the State a sub-stantial revenue. The Federal Government derives a revenue from Sault Ste. Marie. Why shouldn't New York State get revenue from the power now going to waste at Niagara Falls and the Long Sault? The committee advocates aiding, not a class of power users, but the taxpayers of the whole State.

#### REVOLT OVER INSURANCE COST.

Boat Owners to Form Their Own Compensation Company.

Because they believe that the present rates for compensation insurance are too high, the members of the New York Boat Owners Association have decided to start a mutual insurance company The association represents about 130 owners of tugboats, coal boats, scows

and lighters of New York harbor. "The present rates for compensation insurance are over 500 per cent, higher than formerly," said Ernest Stavey, secretary of the association yesterday. "The members of the association have decided to insure the men in their own employ. The present rates were made up from the Massachusetts manual. Some slight changes were made to suit New York State conditions by the State Insurance Fund, representing the State and the Compensating Rating Board representing the stock companies, the association has been unable to
